

Save the Date:

October 31-November 2, 2018

30th Central Pennsylvania Geotechnical Conference

Hershey, Pennsylvania

Scheduled Speakers and Topics

- **Michael Anderson** – Tied Back Micropile SOE to Support Active Rail Loads
- **Dr. Rick Deschamps** – Emergency Stabilization of Fountain Slide
- **Dr. David Elton** – Failures in Geotechnical Engineering
- **Benjamin Ferguson** – Landslide Mitigation for Pipelines in the Appalachian Basin
- **Milton Gomez** – Soft Soil Remediation with Pervious Cellular Concrete
- **Dr. Russell Green** – Liquefaction Hazard due to the Induced Seismicity
- **Dr. Robert Holtz** – Quick and Dirty Design of Geotextile Filters
- **Robert Koerner** – Geosynthetics Design Beyond Factor-of-Safety
- **Joe Krupansky** – Keeping Rocks off the Road - SR 209 Slope Stabilization
- **Dr. Sebastian Lobo-Guerrero** – Predicting Drilled Shaft Capacity
- **Dr. Michael McGuire** – Load Displacement Compatibility Method for Design of Column Supported Embankments
- **Silas Nichols** - TBD
- **Kerry Petrasic** – Geotextile Separation of Pavement Subgrade and Subbase
- **Travis Shoemaker** – Remote Sensing to Riprap Slope Inspection
- **Dr. John Turner** – Rock Socket Geotechnical Resistances of Drilled Shafts in Triassic Basin Sedimentary Rocks

To register, exhibit and obtain further information, visit our website at:
